"The democratic leaders," continued Mr. Dickson, "estimate Hill's plurality below Harlem river at from 60,000 to 65,000, but Gov. Hill told me that if the figures reached 45,000 he would be elected." With regard to the triangular contest in New York county, Mr. Dickson says the result is doubtful. He added that recent developments had very materially injured White, the county democracy's candidate for sheriff, and that Tammany feels very hopeful of the election of Grant. The result, Mr. Dickson thinks, is between Grant and Jacobus, the republican candidate. RICHMOND, VA., Nov. 2.-The latest indications, especially from this city, are not favorable to the republicans, who are generally expressing their fears of a decidedly larger majorty for Lee than was given to Cleveland. The democratic city organization, hitherto quiet, is to-day extending and unfolding itself in all directions. It is said to have for use to-morrow in the large colored wards a mass of testimony affecting the residential qualification of a number of colpublican candidate. ored voters. As permanency of abode is not the rule with a large number of colored male citizens here as well as in other cities, the dem-ocratic managers, if they press the point under consideration, can greatly delay the ballot at many of the colored precincts, where at best the facilities for voting are not one very liberal THE FORT MYER COURT-MARTIAL. "to the Victors Belong the Spoils." BALTIMORE, Nov. 2.-Mayor Hodges took the oath of office to-day, and entered upon his duties. In his inaugural he said he shall conduct his office on business principles. At the proper time all necessary reforms may be made. Though elected as a democrat, he said he shall strictly observe the rule that public office is a public trust, to be used for the public good; but it must be distinctly understood "that it is my settled belief that the voters of a successful political party, when honest and capable, and possessing the confidence of their fellow citizens, to have seats at the governmental table. states that during the year there was admitted

229 males and 91 females, making the total

that of any other year. The number of deaths

the report states, is greater than that of the two

years past. This is due to the number of men of advanced age received from the homes for

for disabled volunteer soldiers and the natural

increasing per cent of mortality as the years

the completion of the dining hall, with the shop for cabinet work for the inmates are, it is stated,

in the direction of enlightened and liberal pro

Annual Report of Gov. Pearce. INCREASED POPULATION, GOOD CROPS, NEW BAILROADS AND FACTORIES, ETC. In this annual report to the Secretary of the

PROGRESS OF DAKOTA.

Interior Gilbert A. Pearce, governor of Dakota, states that the population of the territory is now 416,000 as against 135,180, when the jederal census was taken in 1880. The report states that the year has been a very prosperous one. Not only have the crops been excellent. but the prices commanded have been very much in advance of those realized a year ago. With the exception of wheat, the aggregate yield of small grains for 1885 is largely in excess of that of the preceding year. Surveys of a number of new lines of railroads have been made. A number of manufacturing establishents have been started in the past few years, mbracing woolen mills, flouring mills, quarries, creameries, machine shops, etc.

The report bespeaks a kindly reception by Congress of the appeal made by the constitutional convention for admission of the territory nto the Union. Attention is called to the ne into the Union. Attention is called to the necessity of protecting the school lands in the territory from squatters. The report suggests that the Indian reservation in the territory be cut up and the land given to the Indians in severalty. The hope is expressed that the government will reimburse those settlers who went upon the Old Crow Greek reservation in good faith and were ordered off by the President's proglamation. The territorial tax laws for all proclamation. The territorial tax levy for all ourposes, including interest on the public debt. was but three mills on the dollar during the present year, and the financial condition is a cause of congratulation. The immigration has been very large and colonies of considerable size from Pennsylvania and other eastern states have purchased tracts of land. The death rate

was 5.45 to the thousand, which is said to be among the smallest in the country. THE FREEDMAN'S HOSPITAL Annual Report of the Surgeon in Chief.

SUGGESTIONS AS TO THE LIQUOR TRAFFIC. Dr. C. B. Purvis, the surgeon in chief of the Freedman's hospital, in his annual report | the colored and 725 were white. Of the colored 676 were male and 619 were females. Of the white 611 were males and 114 were females. The whole number admitted was 1,794, an increase of 285 over last year. About 230 exsoldiers have been admitted and treated. Only one death occurred, and that of a patient who had been in the hospital only 24 hours. The recommendation of last year is renewed that persons suffering from alcoholism so as to habit, desire, and a general tendency to de-bauchery should be treated as a misdemeanor and punishment should be imposed not by fine, but by confinement, and the party be compelled to work. The best protective treatment is to make the obtaining of liquors difficult. Sellers should be made responsible if they sell to persons who are addicted to drinking, and they too should be punished by fine and the privilege to sell liquor forfelted. In the dispensary attached 2,879 persons have been prescribed for. As usual there have been a large number of consumptives admitted. During the year 105 cases were treated. The mortality was

President Thompson, of the National Metropolitan bank, spent several hours to-day investigating shadows and supposed clues to the lost \$20,000 contained in letters sent to the bank, but learned nothing satisfactory. It was learned this atternoon, however, that a young gentleman saw a man going away from the neighborhood where the loss occurred Frday with such a pocketbook in his hand. This young man will be seen by the bank officers. It s thought this will furnish a clue. THE UNFINISHED CRUISERS. To be Completed by the Bureaus of Steam Engineering ;and of Construc-tion and Repair, Taking the Place of

the Contractors.

At the conference at the Navy department Saturday between Secretary Whitney, the chiefs of the bureaus of steam engineering and of construction and repair and the members of the naval advisory board the plan for the completion of the unfinished cruisers Chicago, Boston and Atlanta was arranged and decided upon. The work on the vessels will be continued at the yards where they now lie by the bureau of steam engineering and the bureau of construction and repair, and they will bear construction and repair, and they will bear the same relation to the government as the original contractors did. The chiefs of these bureaus, Chief Engineer Loring and Naval Constructor Wilson, will of course be unable to give their personal services to the work, but the bureaus will be held responsible for what is done, and the work will be conducted under the direction of officers representing the bureaus. The representatives selected and ordered to assume charge of the work are Naval Constructor Robert W. Steele and Naval Constructor Geo. W. Much. The former is to Constructor Geo. W. Much. The former is to take charge of the work of completing the Chicago and Boston at Chester and the latter of completing the Atlanta at the Morgan iron works. The naval advisory board will have its representatives at the above words who will an representatives at the above yards, who will su-pervise all work and material as formerly. If any changes or modifications in the original plans are deemed necessary the same course will be pursued as before the government took charge. The representatives of the advisory board notify the board of the desired change, the board of the desired change cha makes the recommendation to the Secretary of the Navy, and, if approved by him, the bureaus of steam engineering are authorized to make the change. The two bureaus step into the places of the contractors and the work pro-gresses as originally intended.

The Driver Dead on His Seat. TRAGIC SEQUEL TO A WALKING MATCH. The exploit of the Harvard students, who made things lively along the road while one of a protective association their number walked from Cambridge to Worcester last Thursday, has had a tragic sequel. They hired a barouche and four horses at the stable of Kenny & Clark in Boston. Patrick
Larkin drove for the young men, who were in a merry mood all day. Tyler the pedestrian statuent, won his wager of \$50, and the entire party put up for the night in Worcester. Friday Larkin started to drive back the team. Saturday morning Farmer Seagraves, living on the old Worcester turnpike, between Natick and Wellesley, saw two horses attached to a barouche standing in the road near his house. The driver was dead on his seat with a broken kneck. How long the team had been there is not known, but is thought that the driver must have run into the limb of a tree in the night, as his outside clothing was pulled up over his head, showing that his body had come in contact with something of that nature. In the barouche were found several bottles of liquor. The horses had probably traveled several miles with the dead driver before stopping.

In 1883 the average vote polled by the candidates on the republican and democratic state ticket was 430,000 and 446,-000 respectively. The present legislature con-tains ninety-two republicans and sixty-eight emocrats.

Virginia will elect a governor, lieutenant governor and attorney general, to serve four years, a part of the state senate and a full house of delegates. Four years ago the gubernatorial vote stood: Readjuster, 111,473; democratic, 99,757. The democratic electors last year had about 6,000 majority. New Jersey will elect seven state senators, of whom six will have a vote in 1887 for a suc-cessor to United States Senator Win. J. Sewell,

cessor to United States Senator Win. J. Sewell, and sixty assemblymen, many of whom by election this fall will obtain a prestige that will make them practically certain, under the two-term custom, of a re-election next year and a vote for United States Senator in 1887. Last year the republicans had eleven and the democrats ten senators, and the republicans thirty-six and the democrats ten senators, and the republicans thirty-six senators in order to retain control of the senate Minor county officers are to be chosen in fifteen counties and city officers in Atlantic City and Elizabeth. Colorado will choose a judge of the state su-

Maryland will elect a controller, clerk of the court of appeals and a legislature. The legislature will choose a governor to serve out the unexpired term of Mr. McLane, who was appointed minister to France, and a successor to United States Senator Gorman. In 1883 the republicans cast 80,707 votes and the demo crats 92,694.

Massachusetts will elect a governor and a ful hassachusetts will elect a governor and a full list of state officers and a legislature. The chief point of interest in the choice of members of the legislature is the biennial sessions and elec-tions amendment to the constitution, which, if passed by the legislature next winter, will be voted on next year. In 1883, the last time Ger Butler ran for governor, the republicans cast 160,092 votes and the democrats 150,228. The present legislature is largely republican.

Mississippi will choose a governor, state officers and members of the legislature. The republicans refused to nominate a state ticket. The present legislature contains 135 democrats and 18 republicans.

Nebraska's election will be for a judge of the state supreme court and two regents of the university. In 1882 the vote for governor in that state was: Republican, 43,495; democratic 28,562; greenback, 16,991.

Gen. Grant and Tobacco From the New York Mail and Express. Whether tobacco caused the cancer of Gen Grant's tongue is a question which may never be decided to the satisfaction of all, but that longer be disputed. Rev. S. H. Lee, of Vermont. says that in 1880 he met the general in the office of a Wall street banker, and during their conversation inquired if it was true that he told the boys in Girard college he was glad they learn while young they would not be likely to do so in later years. Not only did Gen. Grant answer in the affirmative, but declared that "if I could have my way I would let nobody smoke until 21 years of age," and added that "whatever it may do to men, it is certainly bad for the young." His words should be often re-peated by those who desire to check the use of tobacco, which undoubtedly has become so great an evil that it seriously injures very many
